01 PROFILE

Founder and digital strategy consultant who turns complex business needs into clear, trustworthy websites. Combines user research, positioning, content strategy, information architecture, UX/UI design, front-end development, and stakeholder communication to carry practical digital experiences from discovery through launch.

02 EXPERIENCE

Founder and Digital Strategy Consultant | Signalhead Digital — June 2026 - Present

Website strategy / UX and UI design / Front-end development / Client delivery

- Lead client engagements from positioning and information architecture through responsive design, front-end development, QA, launch, and handoff—owning both client decisions and production delivery.
- Launched Trinity Environmental's public website, organizing five service lines, three priority industries, and four credential areas into a clear path from service evaluation to direct contact.
- Made the launch discoverable and measurable with technical SEO, consent-aware GA4, event tracking, accessible interactions, and a complete privacy and website-policy layer.
- Standardized lead qualification, discovery, scoping, proposals, schedules, handoff, and support into a repeatable delivery system for future Signalhead engagements.

UI/UX Designer and Web Consultant | Bianco Brothers Manufacturing — Nov 2025 - Jun 2026

- Redesigned and launched a seven-page B2B website for a legacy commercial-seating manufacturer, aligning positioning, services, proof, catalog access, FAQs, and contact paths around buyer decisions.
- Turned a 20-company competitive audit into clearer positioning, navigation, and conversion paths for architects, designers, contractors, and dealers.
- Built a structured quote workflow that captures seating needs, buyer role, and reference-file uploads, giving sales useful project context at first contact.

UI/UX Designer | Racatech LLC Sheltr — May 2025 - May 2026

- Led mixed-method research across 8 interviews and 31 survey responses, with 24 respondents prioritizing data security and 23 selecting secure document access as valuable.
- Converted findings into 3 personas, 30 UX opportunities, prioritized product requirements, information architecture, user flows, wireframes, design systems, and high-fidelity Figma prototypes.
- Validated onboarding, emergency, legal-rights, translation, and trusted-contact flows through peer usability testing, then revised interaction and content decisions from participant feedback.

Creative Consultant and Artist Manager | Freelance — 2015 - 2024

- Managed creative and client projects from concept through launch, coordinating planning, communication, marketing, audience engagement, and delivery.
- Supported marketing and audience growth through practical, user-focused digital experiences.
